ANNUAL INDEX

for Vol. 49-1960

Apprenticeship

Our Critical Craftsmen Shortage, Edward K. Hankin, 18 (November)

Architectural Drawing

Creative Architectural Drafting, Victor F. Hoffert, 18 (June)

Arts and Crafts

Fun in Etching, Gerald M. Mugerian, 30 (December)

Audio-Visual Aids

Try Closed-Circuit TV for Better Industrial Education, Ernest B. Parry, 18 (December)

Auto Mechanics

How to Develop an Auto Mechanics Course, Walter Trasin, 42 (January)
Visual Aid for Automotive Mechanics, A, Warren S. Thompson, 37 (May)

Biography

Tribute to a Great Leader: Dr. William T. Bawden, Chris H. Groneman, 18 (September)

Carpentry

Device for Teaching Roof Framing, A, Donald W. Sherman, 34 (November)

Cartoons

Cartoons, William S. Hanks, 11 (April); 10 (May); 10 (November); 8 (December)
Old Straightedge, John D. Springer, 35 (February); 37 (November)

Ceramics and Plastics

Ceramic Tile Tables, James Schilleman, 32 (June)
Dispenser for Sandwiches, A, George Haney, 37 (February)
Embedded Laminated Plastic Jewelry, William C. McNeice, 30 (November)
Functional Gun Rack, A, William E. Mayer, Jr., 46 (October)
Handsome Trivets Combine Laminated Plastic and Wood, Patrick Spielman, 32 (November)
Laminated Plastic Salt and Pepper Shakers, Gothard Knutson, Jr., 28 (June)
Line Gauge Tester, Bernard J. Vesely, 30 (October)
Plastics, Paul Harsha, 42 (November)
Plastic Tie Holder, Tom Rogers, 46 (October)

Charts

Nomograph for Parallel Resistance, Parallel Inductance, and Series Capacitance, Ross Storm, 34 (April)

Chemical Finishes

Enriching Metal Surfaces Through Chemistry, Carl J. Knoll, 32 (April)

Clubwork

School Radio Club, A, Kenneth J. Weger, 36 (June)

Co-operative Education (Distributive, Consumer)

Consumer Values: As a Core Topic for the Modern Industrial Arts Program, Joseph Caputo, 12 (December)
Vocational Placement: A Co-operative Function, J. Henry Zanzalari, 25 (December)

Counseling

Are We Producing Enough Industrial Arts Teachers?, Ray C. Maul, 78 (May)
Vocational Placement: A Co-operative Function, J. Henry Zanzalari, 25 (December)

Curriculum

Let Industry Shape Your Printing Curriculum, Robert R. Denny, 23 (December)
Put Fishing in the Curriculum, Leon I. Reissman, 35 (September)

Design and Drafting (Architectural and Mechanical)

All About a Career in Industrial Design, Warren W. Fitzgerald, 42 (June)
Architectural Model: A New Method of Construction, Herbert C. Simonson, 40 (December)
Be Design Conscious, John J. DeFourny, 58 (October)
Design Ideas for the Handicrafts, John R. Lindbeck, 22 (February)
Designing for Metalwork, John R. Lindbeck, 26 (January)
Designing for Welding, John R. Lindbeck, 26 (November)
Free Form Table Lighter, A. C. Vasis, Jr., 38 (May)
Function and Design, John R. Lindbeck, 20 (June)
Materials Experimentation in Design, John R. Lindbeck, 22 (April)
Old Straightedge (cartoons), John D. Springer, 35 (February); 37 (November)
Ozalid Developer Tube, The, S. J. Mark, 36 (February)
Spraying on Textiles, Robert McWilliams, 44 (May)
Utilizing Copper Tubing, John A. Carey, 28 (December)
What Does Research Say?, William Spence, 53 (December)
Wood-Turning Project Design, John R. Lindbeck, 32 (May)
Woodworking Project Design, John R. Lindbeck, 32 (October)

Discipline

Classroom Control, On, Walter Trasin, 33 (September)
Industrial Education and Delinquency, Walter Trasin, 16 (April)

Editorials

Case for Power Mechanics, The, 17 (November)
Four Bare Walls Are Not Enough, 35 (March)
How Do We Provide Activity?, 13 (April)
Industrial Arts: Hard or Soft Education?, 13 (February)
Industrial Education and the Library, 11 (December)
Is Our Terminology Getting Us Down?, 21 (May)
Let's Take the Offensive!, 13 (June)
Our New Year's Resolutions, 17 (January)
Our Platform, 23 (October)
Three Keys to a Successful Year, 23 (September)

Electricity

Apartment Call System, M. D. Roberts and W. O. Satterley, 39 (May)
Circuit Builder, The, Robert J. Mouser, 40 (November)
Continuity Circuit Tester, M. D. Roberts and W. O. Satterley, 36 (October)
Display Panels for Electrical Project Kits, Waldemar E. Klammer and Thomas Williams, 33 (February)
Electricity, Electronics, Teacher Education, William Spence, 74 (September)
Electricity Mural, An, Norman Eberhardt, 37 (January)
Find the Magic Numbers, Stan Schirmacher and Len Hiller, 35 (April)
Foul-A-Cator, Harry E. Wolford, 36 (January)
Heavy-Duty Electric Etcher, A, R. L. Grandle, 38 (October)
House Wiring Program, A, J. Russell Kruppa, 34 (June)
100-Watt Soldering Copper, J. Russell Kruppa, 32 (February)
Simple Electrical Tester, Robert J. Mouser, 39 (June)
Teaching the Rule, Cecil Sanders, 51 (October)
There's Take-Home Pay in This Series Tester, Robert J. Mouser, 40 (May)
Variable Capacitance Box, Isaac P. Hampton, Jr., 35 (December)
Visual Aid for Automotive Mechanics, A, Warren S. Thompson, 37 (May)

Electronics

Build a Transistor Megaphone, William J. Ryan, 38 (November)
Electricity, Electronics Teacher Education, William Spence, 74 (September)
Electronic Race Starter, An, Robert J. Mouser, 38 (September)
Electronics, R. A. Matthews and R. J. Winter, 53 (September)
Electronics Laboratory in Springfield, The, Hank Billings, 39 (February)
Miniature Tube Tester, Peter A. Fulcer, 36 (December)
Model Vacuum Tube, A, Roger J. Weaver, 41 (October)
Modern Crystal Set Fits Into Your Pocket, Rex Miller, 38 (June)
School Radio Club, A, Kenneth J. Weger, 36 (June)
Soldering Jig, A, Robert J. Mouser, 40 (October)
Standard and Plug-in Type Electronic Circuits, Joseph J. Sayovitz, 34 (October)
Student Electronics Kit, A, Robert J. Mouser, 38 (December)
Technical Electronics at Levittown, Bernard F. Rappaport, 40 (February)
There's Take-Home Pay in This Series Tester, Robert J. Mouser, 40 (May)
Three-Transistor Wonder, Robert H. Berry and Edward E. Liesse, 39 (November)

Foundry

$8 Crucible Furnace, An, Charles G. Risher, 24 (February)
Executive Name Plate, An, Michael C. Pierno and Lawrence A. Rogers, 27 (February)
Plaques in the Junior High School Foundry, Michael C. Pierno, 29 (November)

General Shop and Home Mechanics

Aid to Project Planning, An, Carl R. Bartel, 28 (November)
Be Design Conscious, John J. DeFourny, 58 (October)
Beware the Project, Elbert L. Gardner, 54 (October)
Challenge of Small Schools to Industrial Educators, The, 29 (September)
Industrial Arts Project Evaluation, Richard N. Wahlstrom, 59 (October)
Model Vacuum Tube, A, Roger J. Weaver, 41 (October)
Nine Criteria for Project Selection, Arthur O. Berry, 30 (October)
Planter in Molded Fiberglas, A, William R. McNeil, 34 (May)
Spraying on Textiles, Robert McWilliams, 44 (May)
Stapling Device, A, Carl H. Hubachek, 49 (October)
Teaching the Rule, Cecil Sanders, 51 (October)

Grades and Grading

Industrial Arts Project Evaluation, Richard N. Wahlstrom, 59 (October)

Graphic Arts

Graphic Arts, Samuel M. Burt, 42 (December)
Junior High School Memories, Ben Taubenfeld and Mike Conroy, 34 (January)
Program for Printing Week, A, John M. Fontana, 54 (December)

Handicrafts

Design Ideas for the Handicrafts, John R. Lindbeck, 22 (February)

Industrial Arts

Aid to Project Planning, An, Carl R. Bartel, 28 (November)

ANNUAL INDEX

for Vol. 49-1960

Apprenticeship

Our Critical Craftsmen Shortage, Edward K. Hankin, 18 (November)

Architectural Drawing

Creative Architectural Drafting, Victor F. Hoffert, 18 (June)

Arts and Crafts

Fun in Etching, Gerald M. Mugerian, 30 (December)

Audio-Visual Aids

Try Closed-Circuit TV for Better Industrial Education, Ernest B. Parry, 18 (December)

Auto Mechanics

How to Develop an Auto Mechanics Course, Walter Trasin, 42 (January)
Visual Aid for Automotive Mechanics, A, Warren S. Thompson, 37 (May)

Biography

Tribute to a Great Leader: Dr. William T. Bawden, Chris H. Groneman, 18 (September)

Carpentry

Device for Teaching Roof Framing, A, Donald W. Sherman, 34 (November)

Cartoons

Cartoons, William S. Hanks, 11 (April); 10 (May); 10 (November); 8 (December)
Old Straightedge, John D. Springer, 35 (February); 37 (November)

Ceramics and Plastics

Ceramic Tile Tables, James Schilleman, 32 (June)
Dispenser for Sandwiches, A, George Haney, 37 (February)
Embedded Laminated Plastic Jewelry, William C. McNeice, 30 (November)
Functional Gun Rack, A, William E. Mayer, Jr., 46 (October)
Handsome Trivets Combine Laminated Plastic and Wood, Patrick Spielman, 32 (November)
Laminated Plastic Salt and Pepper Shakers, Gothard Knutson, Jr., 28 (June)
Line Gauge Tester, Bernard J. Vesely, 30 (October)
Plastics, Paul Harsha, 42 (November)
Plastic Tie Holder, Tom Rogers, 46 (October)

Charts

Nomograph for Parallel Resistance, Parallel Inductance, and Series Capacitance, Ross Storm, 34 (April)

Chemical Finishes

Enriching Metal Surfaces Through Chemistry, Carl J. Knoll, 32 (April)

Clubwork

School Radio Club, A, Kenneth J. Weger, 36 (June)

Co-operative Education (Distributive, Consumer)

Consumer Values: As a Core Topic for the Modern Industrial Arts Program, Joseph Caputo, 12 (December)

Grades and Grading

Industrial Arts Project Evaluation, Richard N. Wahlstrom, 59 (October)

Graphic Arts

Graphic Arts, Samuel M. Burt, 42 (December)
Junior High School Memories, Ben Taubenfeld and Mike Conroy, 34 (January)
Program for Printing Week, A, John M. Fontana, 54 (December)

Handicrafts

Design Ideas for the Handicrafts, John R. Lindbeck, 22 (February)

Industrial Arts

Aid to Project Planning, An, Carl R. Bartel, 28 (November)

Beware the Project, Elbert L. Gardner, 54 (October)
Controlling Loss in the I-A Shop, Earl D. Heath, 31 (May)
Credo for a Renaissance in Industrial Arts, Kenneth F. Perry, 14 (June)
Effective I-A Teaching, On, Oval S. Harrison, 22 (January)
Enrichment Program for Industrial Arts, An, James A. Hales, 85 (September)
Future Role of the Project in Industrial Arts, The, Everett R. Glazener, Welcome E. Wright, Ivan Hostetler, John Mitchell, Howard O. Reed, 24 (October)
Group Project as a Beginning I-A Experience, Talmage B. Young, 27 (October)
How to Develop an Auto Mechanics Course, Walter Trasin, 42 (January)
How to Use a Research-Experimentation Approach, Arthur W. Earl, 23 (November)
Industrial Arts and General Education, S. L. Coover, 28 (May)
Industrial Arts for the Physically Handicapped, R. V. Echelbarger, 17 (February); 49 (September)
Industrial Arts Program for the Gifted, An, Carl J. Knoll, 51 (September)
Industrial Arts Program for the Slow Learner, An, Mrs. Palmer Reppe and Charles F. Wrobel, 47 (September)
Industrial Arts Project Evaluation, Richard N. Wahlstrom, 59 (October)
Industrial Education and Delinquency, Walter Trasin, 16 (April)
Industrial Education and the Conant Study, E. Robert Rudiger, 14 (February)
Let's Make It Count, Mervyn T. Jones, 22 (November)
Nine Criteria for Project Selection, Arthur O. Berry, 30 (October)
Our Class in Scale, Richard F. Doutt, 29 (May)
Preparing I-A Teachers for Exceptional Children, George A. Willoughby, 44 (September)
Related Information: The Monster That Is Sucking the Lifeblood From Industrial Arts, Robert A. Henry, 13 (December)
Selecting I-A Solids From Industry, Troyce D. McGovern, 17 (June)
Teaching Industrial Arts to the Remedial Pupil, James J. Runnalls, 46 (September)

Instruction Sheets (Operations, Processes, Assignments)

Aid to Project Planning, An, Carl B. Bartel, 28 (November)
Try Shop Notebooks, Harold James McWhinnie, 22 (December)

Integration (of Subjects)

Science, Mathematics, and Industrial Arts, Richard F. Doutt and Eldon G. Scriven, 15 (December)

Lapidary

Embedded Laminated Plastic Jewelry, William C. McNeice, 30 (November)

Machine Shop

Die Stamping a Souvenir Ash Tray, H. J. Gerber, 23 (June)
First-Year Machine Tool Project for Highlighting Mathematics, A, Carl Gassen, 36 (May)
Grinding a Tool Bit, Fred A. Culwick, 28 (June)

Mass Production

Clean-Up Chart as a Mass-Produced Project, A, Everett V. Traylor, 31 (December)
Magazine Rack for Mass Production Experience, Bernard Bernstein, 36 (September)

Metalwork

Adapting a Project to Mass Production, John R. Walker, 40 (January)
Cradle for a Gallon Milk Jug, R. G. Ashbaugh, 26 (April)
Designing for Metalwork, John R. Lindbeck, 26 (January)
Designing for Welding, John R. Lindbeck, 26 (November)
Die Stamping in the School Shop, James Nelson, 38 (January)
Inexpensive Plastics Oven, Gerald L. Steele, 45 (October)
100-Watt Soldering Copper, J. Russell Kruppa, 32 (February)
Magazine Holder, Kenneth R. Thomas, 30 (June)
Metal-Bending Brake, Marshall C. Anderson, 42 (October)
Metal and Wood Table Lamp, M. L. Zanco, 29 (June)
Rocket Lamp, A, Leslie A. Koch, 34 (February)
Unique and Inexpensive Sun Frame, A, Lawrence S. Wright, 29 (April)
Universal Auxiliary Welding Table, Marion E. Maddox and Clarence Johnson, 44 (October)
Utilizing Copper Tubing, John A. Carey, 28 (December)

Methods

Group Project as a Beginning I-A Experience, Talmage B. Young, 27 (October)

Models

Architectural Model: A New Method of Construction, Herbert C. Simonson, 40 (December)

Photography

Super Montage Making, Harry J. Miller, 39 (December)

Power Mechanics

Suggested Content for Power Mechanics, Charles G. Risher, 20 (December)
Why Power Mechanics?, Charles G. Risher, 46 (November)

Printing

Autobiography — A Creative Printing Project, Rolland C. Wolfe, 37 (April)
Let Industry Shape Your Printing Curriculum, Robert R. Denny, 23 (December)
Production Printing — How to Ease Its Burden, Charles E. Davis, 43 (September)
